Property owner says his garage can "aint what it used to be." Neither is mine so I bought a new one. Course I'm not enthusiastic about buying garbage cans any more than I have to, so may I along with my complaining friend ask for gentle treatment on the part of the collectors.

Over the coffee with Jim Breaux. Discussion business, politics, economics, banking. Jim is a banker. From sheer necessity I am an economist, so I chiseled him out of a cup of coffee.

After a business career in the downtown section covering more than 25 years Edw. E. Cochems decides to reduce the overhead and labor and moves to his own home. One is impressed with the number of residences which are now used as business headquarters. A frequent reason given for this change is greater opportunity for parking. Professional clinics in residential sections offer great convenience. A solution of the downtown problem might reduce the movement toward innerurban locations.

Well, maybe Paul Wright, jr., will also be a sports editor. His father seems to have laid the foundation.

Guess I'll ask for a uniform. Fem friend starts across the intersection against the signals. That negotiation involved danger. So I impart the info that the transaction is against the public welfare as well as the personal. I got away with it, O. K., even if the warning was without authority.

Ed Miracle failed to go through with a good hunch. When I was entertaining a couple of car buddies he thought of taking advantage of me and sent a "Mother's Day" card, my incarceration taking place during that event. He weakened. Now I do not know whether it was on account of not finding a suitable verse, or whether after mature and economic consideration he decided I wasn't worth it. As the score now stands I have neither car buddies or a "Mother's Day" card.

It will soon be time to sell fireworks, and it is against the law to explode them within the city limits. Usually, out of respect to the city ordinance, a group drives out to their ranch to celebrate, while the bombardment is going in all parts of the city. There isn't any favoritism in the law. It is just a matter of respect toward it.

Met W. Kee Maxwell, editor of The Fullerton News-Tribune, who was over for both business and pleasure. I got the pleasurable end of the journey, because it is always a joy to meet W. Kee. Sometime ago when a fellow newspaper man asked him if he ever read Skinny's column, true to the traditions of his mother's teachings he said yes, but qualified it only occurred at those times when he had leisure and in a most restful position. Well, I'm thankful for any consideration.

Fem friend hands me a picture of a lady singing before a woman's club, and says it is an item for my column. Is it? What kind of an item? I have a lot of interrogations to offer before I can handle the subject either officially or intelligently—the latter if ever.

Reward for ability and industry has come to William Eugene Hays, son of Mr. and Mrs. Rolla Hays of Santa Ana. He has been appointed to the newly created office of director of agencies, effective Aug. 1. Eugene graduated from Stanford in '26. Went into the local office for six years, thence to Los Angeles, and now to the Boston office of the New England Mutual Life Insurance company. In this land of the free and the home of the industrious and opportunity, there isn't any place to stop if you are ambitious.

Harry Altman, of the Mosaic society, has caused to be printed and placed in Los Angeles jails, one hundred copies of the decalogue. Later on he hopes to have the commandments placed in every jail in the United States. I'm thankful the boys of Elmer Brith called my attention to the commandments at their institutional meeting at the American Legion hall last Monday night. I much rather get them from a Le-

MORE SHIPS TARGET FOR WARPLANES

MADRID. (AP)—Spanish insurgent air raiders today bombed a third merchant ship off Benicassim, near Castellon De La Plana, killing 12 persons and wounding nine. The ship was not immediately identified. The attack was the most serious of three such bombardments early today.

A night raider appeared at Denia and bombed the French freighter Brisbane, while the British freighter Isadora was disabled at Castellon De La Plana, but without casualties.

OBSERVER KILLED
DENIA, Spain. (AP)—The British freighter Isadora and the French freighter Brisbane were bombed today in separate insurgent air raids in government-held Mediterranean seaports.

Five persons were killed, including an observer for the European non-intervention committee, in the raid on the Brisbane by a lone bomber outside this harbor. Ten others were injured, four gravely. The Isadora was struck in her engine room about midnight in the harbor of Castellon De La Plana, and was believed to have been put out of commission. There were no casualties, however, aboard the Isadora.

SHIP AFIRE
The Brisbane was set afire about the same time, and still was burning today. It was feared she would sink.

The French ship, of 4004 tons and loaded with fertilizer, was at anchor in the Denia harbor when the air raider struck.

The plane dumped four bombs on the ship and then sprayed her decks with machine gun fire.

196-1 LONG SHOT WINS

AGAWAM, Mass. (AP)—Gemwick, longest shot in the history of the Agawam park race track, came galloping home to win by a length today in the first race this afternoon to pay \$304.80 on two dollar tickets and to help create a new daily double pay off record for the track of \$3258.

Coupled with the favorite Good Dame, in the second half of the double, the combination brought two ticket holders \$3258 each.

Gemwick, against which the odds were 196 to 1, is owned and trained by J. Skarbek.

Sheppard Engages In Milking Contest That Ends In Draw

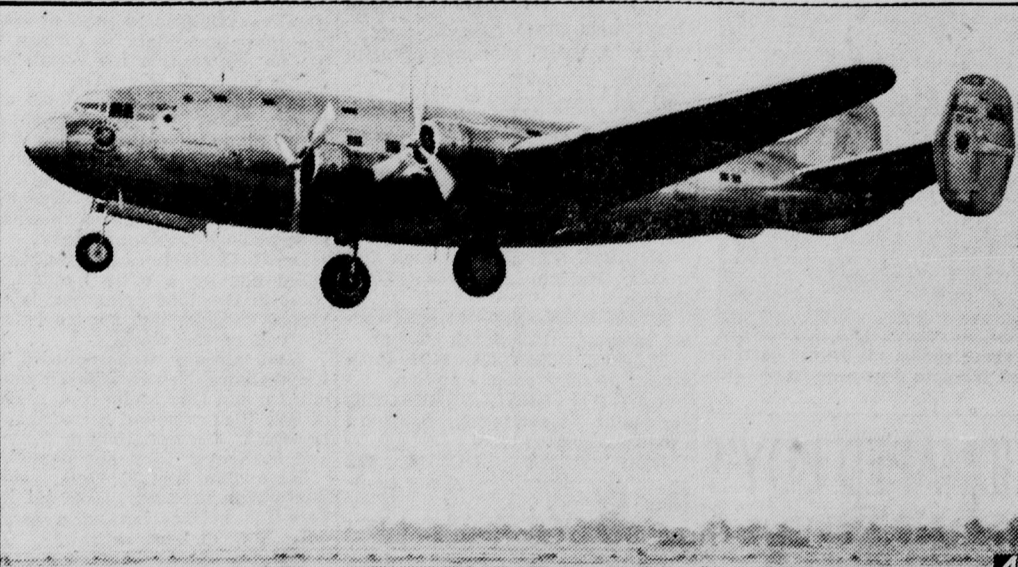

WASHINGTON. (AP)—The first congressional cow-milking contest between representatives from the middle west and the far west ended in a draw today.

Staged on the mall, between the capitol and the Washington monument, Representatives Knutson (R., Minn.) and Boileau (Prog., Wis.) crossed grips with Representatives Sheppard (D., Cal.) and Pierce (D., Ore.).

After the congressmen had struggled for 15 minutes with very little to show for their efforts, Representative Marvin Jones, chairman of the house agriculture committee, and referee of the contest, declared the event a draw.

**Bernsteins Appeal
Receivership Order**
LOS ANGELES. (AP)—Notice of appeal from the order appointing a receiver for the property of Mr. and Mrs. Arthur Bernstein, stepfather and mother of Jackie Coogan, in the former boy film star's suit for accounting against them, was filed today in superior court.

Largest Commercial Land Plane Tested

The new Douglas DC-4, world's largest commercial land plane, is shown as it took to the air at Santa Monica, Calif., for its first test flight. Some 20,000 persons witnessed the flight of the 4-passenger plane, first of its type to be built for the nation's major air lines. The airliner cruises at 150 miles per hour.

NATIVES PRAY VOLCANO TO END ERUPTION

MANILA. (AP)—Natives knelt in the streets of Guinobatan today and prayed for the earth-shaking shower of stone and ash might cease pouring from Mayon volcano.

The portmaster of Legaspi reported the fiery mountain spewed incandescent rock with greater intensity than at any time during the seven day eruption, shortly before noon today.

Showers of ashes fell upon villages and plantations beyond the base of the crater, and fear was expressed that the crops on hemp and coconut plantations might be destroyed by ashes which were carried by the wind over four provinces of southeastern Luzon island.

Refugees who fled villages and homes were promised relief from threatened food shortage today when the commonwealth government ordered release of sufficient funds to provide emergency rice supplies and temporary shelter.

Spanish Loyalists Shift Their Forces

HENDAYE, France, at the Spanish Frontier. (AP)—The government shifted heavy reinforcements to the Usser sector on the Valencia front in eastern Spain yesterday to meet its crumbling defenses 12 miles northwest of Castellon de La Plana.

Steady insurgent pressure supported by heavy artillery and ceaseless air fleet bombardments was slowly forcing government militia men to give way in the salient.

U. S. Rail Operation During Strike, Aim

WASHINGTON. (AP)—Representative Crosser (D., Ohio) said today railway labor leaders had asked him to introduce a bill empowering President Roosevelt to operate the railroads in the event a strike is called this summer. The railroad management have ordered a pay cut effective July 1.

Explorer's Plane Reaches Goal

SAN FRANCISCO. (AP)—Richard Archbold, head of a scientific expedition for the American museum of natural history, reached the island of New Guinea today after a 2300-mile non-stop flight from Wake island in his flying boat, "Guba."

Springer, N. M. (AP)—Grasshoppers by the billion were on the march in the deep south-west and Rocky mountain region today, threatening farmer and stockman with ruin.

Pitted against a fantastic insect menace to millions of acres of farm and grazing lands were hundreds of men and machines, waging desperate war against seemingly relentless 'hopper hordes.

Operation Without Anaesthetic Held Kidnapers' Aim

OXFORD, England. (AP)—Testimony that a would-be kidnaper intended to extort \$500,000 from Viscount Nuffield, millionaire automobile manufacturer, by threatening him with an "operation without an anesthetic" was introduced today at the hearing of John Bruce Thornton.

Thornton, 50, is charged with inciting Maj. Arthur G. F. Ramsden to help him abduct Great Britain's "Henry Ford."

If Nuffield "did not play the game," Ramsden said, Thornton wanted to take the peer out to sea on a yacht and "dump him."

The plot collapsed, the prosecutor said, because Ramsden told police.

DON BUDGE IN FINAL ROUND

AUTEUIL, France. (AP)—Don Budge today moved a step nearer the second episode in his projected tennis "grand slam" as he routed Josip Pallada of Yugoslavia, 6-2, 6-3, 6-3, to enter the final round of men's singles in the French hard court championships.

The Californian, who already has won the Australian title this year, hopes to add to it the French, British and U. S. crowns.

In the finals Budge will meet Roderich Menzel, giant Czechoslovakian, who eliminated Ferenc Poncek, Pallada's countryman and Davis cup teammate, 6-4, 6-4, 6-4.

Captain Reports Cruiser Explosion

BALTIMORE. (AP)—Capt. Ernest Travers reported in Cambridge today he saw a luxurious 40-foot cabin cruiser explode, burn and sink in the Chesapeake bay last night.

He said he cruised for two hours in a vain attempt to pick up any survivors.

The maritime exchange in Baltimore said it had no record of any such yacht missing in the bay.

G-Man Chief May Wed Star's Mother

NEW YORK. (AP)—The World-Telegram says that Mrs. Lela A. Rogers, mother of Ginger Rogers, the movie star, may become the bride of J. Edgar Hoover, head of the federal bureau of investigation.

The newspaper quotes Mrs. Rogers as replying to queries on the prospects of a wedding: "It's up to him."

ART JARRETT PARTS FROM SWIM STAR

LOS ANGELES. (AP)—Arthur L. Jarrett, singing orchestra leader, today obtained a divorce from the beautiful Eleanor Holm, one-time Olympic swimmer.

All this talk of a romance between Eleanor and Billy Rose, theatrical producer, caused Jarrett "great mental anguish and embarrassment," he testified in so many words at the hearing.

Judge Charles E. Haas granted him the decree.

And this was removed one of the bars to the marriage of Miss Holm and the diminutive Rose.

Both the producer and Miss Holm have declared they would be married if Jarrett obtained a divorce and if Rose's wife, fanny Brice, did likewise.

The court asked Jarrett if his wife embarrassed him otherwise. "Yes," he replied. "She was a member of the 1936 Olympic swimming team and she was dismissed from the team because of alleged drinking on the boat going to Europe."

Portland Festival Hit By Hotel Tieup

PORTLAND, Ore. (AP)—Marching pickets and bewildered, stair-climbing guests today marked a strike which drew 1250 hotel employees from their work in eight of the city's largest hotels at the opening of Portland's annual rose festival.

No hotels were closed, and all attempted to keep up a semblance of service, with managers handling registration desks, carrying baggage and preparing rooms.

Dog Bites Queen

COPENHAGEN. (AP)—Queen Alexandrine of Denmark was recovering today from a dog bite and probably will not participate in celebration of the eightieth birthday of King Gustaf V of Sweden at Stockholm June 16.

YACHT ASKS HELP

JACKSONVILLE, Fla. (AP)—Coast guard divisional headquarters had received a message at 5:17 a. m. today from the steamer Castille saying the yacht Backbone of New York was in distress and its captain had been lost overboard.

The current infestation is the fruit of last year's unchecked invasion, when winging clouds of 'hoppers laid eggs in countless numbers. A repetition this year, all authorities agree, might seriously endanger the entire state of New Mexico and cripple financially ranchers and farmers.

New Mexico's grasshopper co-ordinator, Albert K. Mitchell, covered the "front" by airplane, reported the menace checked in some spots, but described as serious a nearly 100 per cent infestation of a 25,000-acre tract in Harding county, where migration was in progress.

AGAIN U. S. ASKS JAPAN END BOMBING

WASHINGTON. (AP)—Ambassador Joseph Grew at Tokyo asked the Japanese government today to take urgent measures to stop bombing of noncombatant property in China.

The state department said Grew was instructed to apprise the Japanese foreign office of an attack of Japanese planes upon the Lingnan university campus yesterday.

Grew, the announcement said, told the Japanese that three bombs were dropped on the edge of the school's athletic field 200 yards from residences of Americans at the university.

RAIL STATIONS BLASTED

CANTON. (AP)—Japanese airplanes ferried their cargoes of explosives and dropped them in the vicinity of Canton and neighboring railway stations today for the thirteenth consecutive day.

The raiders blasted three railway stations in the vicinity but dropped no bombs on the shattered South China metropolis, where intensive anti-aircraft fire greeted them.

Chinese soldiers brought their rifles into play when one of the planes flew low several times over Shamen, the international settlement, but the firing was without effect.

SHRINE JOKE BACK FIRES

LOS ANGELES. (AP)—A Shrine jest backfired slightly today. Six nobles from Moslem temple of Detroit were the victims. The sextet—E. D. Wageman, Roy Heath, Larry McCormick, John Palmer, Ernest Van Vleet and Al Kenney—decided to stage a parade down Broadway street at 4 a. m.

One of them carried a hand organ. Sergeant Ben Mason of the police force thought he'd have a prank, too.

He promptly "arrested" the paraders, took them to the city jail, locked them in a cell. The boys laughed about it all.

But after being locked up for two hours, they got worried. They demanded that Noble Richard Reading, mayor of Detroit, be summoned. The mayor, routed out of bed, brought a huge beach umbrella—because of a slight drizzle—and rescued his friends.

Woman Bitten By Snake Is 'No Worse'

HAMMOND, La. (AP)—Mrs. Joe Rushing, 56-year-old member of a religious sect who was bitten by a poisonous snake Sunday night during a "faith demonstration," clung tenaciously today to the belief faith would cure her.

J. T. Priest, state overseer of the order, to whose home Mrs. Rushing was taken after she became ill from effects of the bites, said last night her condition was unimproved but was "no worse."

Baby Dies After Sleeping 50 Days

NIAGARA FALLS, N. Y. (AP)—Eighteen-months-old Elsie Palazzo died in a hospital today after sleeping for 50 days.

The baby suffered an attack of measles early in April, and later was sent to the hospital with a disease diagnosed by her physician as a form of meningitis.

Suspect's Aides Sought; Ransom Cash Recovered

MIAMI, Fla. (AP)—The body of kidnaped James Bailey Cash, jr., was found today and G-men announced the recovery of the \$10,000 ransom and the arrest of a suspect but indicated the case still was not completely solved.

"We have the kidnaper or one of the kidnappers," said J. Edgar Hoover, director of the federal bureau of investigation, in discussing the arrest of Franklin Pierce McCall, husky 21-year-old truck driver who he said admitted writing the three ransom notes and collecting the money. Hoover declined to say whether authorities were seeking possible confederates. He also turned aside questions as to whether any others were in custody.

"The investigation will actively continue," Hoover announced, adding that the FBI field office in Princeton, however, would be closed.

Hoover said Dr. Thomas Otto, who accompanied federal agents when they located the 5-year-old victim's body three minutes after midnight this morning less than a mile from his home, believed he had been dead when left there.

JURY VIEWS BODY
"Climate and humidity caused rapid decomposition," he said. "The body was found face up. There was no evidence of violent injury."

A coroner's jury impaneled by Justice of the Peace S. L. Kendrick of Homestead viewed the remains at an undertaker's there, inspected the thick where it was found and called at the home of Cash, senior. Then it adjourned until Saturday afternoon without returning a verdict.

McCall, a former tenant in the Cash apartment house, was taken into custody a week ago by Sheriff D. C. Coleman. The sheriff said he attempted to implicate M. F. Braxton, unemployed Princeton carpenter, by identifying him as a man he said he saw slip the third of the ransom notes under Cash's door two nights after the abduction May 23. Braxton and his relatives were held for questioning but later released.

It was understood that while most of the ransom money was recovered, a few of the 1500 bills of small denomination were missing.

Despite the possibility that others besides McCall might be involved, State Attorney George A. Worley went before Circuit Judge Arthur Gomez and had a call issued for a special grand jury to convene Monday morning.

Sheriff D. C. Coleman said McCall (Continued on Page 2, Col. 4)

The trio took off from Martin's airport at 8:30 a. m.

Eludes Guards; Hits Wife's Killer

In this dramatic picture, Elmer Johnson is shown as he rushed past Chicago police guards to deliver a vigorous blow to the face of Robert Nixon, 18-year-old negro, who is accused of killing Johnson's wife. The incident occurred during an inquest into Mrs. Johnson's death. At the right is Chief of Detectives John L. Sullivan.

Southerners Threaten Bolt On Wage-Hour Bill

DISCUSSION OF BILL REOPENED BY COMMITTEE

WASHINGTON. (AP)—A threat of southerners to fight a previously approved compromise forced a joint congressional committee to reopen today discussion of the day provisions of the wage-hour bill.

Armed with an ultimatum supported by 18 southern senators in a caucus this morning, Senators Ellender (D., La.) and Pepper (D., Fla.), southerners on the conference committee, told the conferees they must have wage differentials or they would make an active floor fight on the legislation.

The southerners proposed a new compromise, by which a minimum wage of 40 cents an hour would become effective for all interstate industry at the end of seven years, but with exceptions which would permit differentials on a sectional basis.

The conference committee previously had agreed, with 12 of the 14 conferees concurring, to a compromise which would excuse only those industries which could prove at the end of the seven year period that a 40 cent minimum would cause unemployment.

The southerners insisted, however, that such factors as lower living costs and freight rates, which they said were discriminatory against the south, should be considered in granting exemptions.

Ellender said Chairman Thomas (D., Utah) of the senate conferees was engaged, with others, in an attempt to draft language to which the southerners would agree. Thomas declared progress had been made in this morning's conference but declined further comment.

"We're right back where we started when the conference began," lamented Representative Randolph (D., W. Va.) as he left the conference room.

The decision of the southerners carried a broad hint of a senate filibuster if congress declined to revoke their action and lift the time limit from the pay legislation. Senator Ellender (D., La.) one of the conferees, said: "If they (the conferees) don't accept our plan there is going to be a lot of talking on the bill. I guarantee that."

Senator Pepper (D., Fla.), the other southern senator on the conference committee, said he would propose to the conferees that a minimum wage scale of 25 cents an hour be made effective for all interstate industry as soon as the bill becomes operative.

His proposal also would establish industry boards empowered to fix the minimum wage to be paid in each industry. These boards would be charged with increasing this minimum to 40 cents an hour as soon as "economically feasible."

F.D.R. HEADS WEST JULY 7

WASHINGTON. (AP)—The White House announced today that President Roosevelt—if conditions permitted—would leave on a western trip July 7 and speak in Covington, Ky., July 8.

No details were announced. It was expected, however, that the President would speak from his train at the stop in Kentucky, where Senate Leader Barkley is being opposed for renomination in the Democratic primary by Gov. A. B. Chandler.

Tentative arrangements call for Mr. Roosevelt, on leaving Kentucky, to visit Tennessee, Oklahoma, Texas and California. He may make a stop or two between the last two states.

The President is expected to take a naval vessel on the West Coast for a cruise down the coastline.

Lindbergh Family Believed Moved To Lonely Isle

LONDON. (AP)—Col. and Mrs. Charles A. Lindbergh have left Long Barn, in Kent, their English home for the past two and a half years.

Friends said presumably they had gone to lonely Illec island, off the coast of France's Brittany, which the flier bought last April.

A reliable source said the Lindberghs had given up their farmhouse for good and, with their two sons Jon and Land, left the country "several days ago."

Only last week Col. and Mrs. Lindbergh attended Britain's Royal Court ball—he in traditional knee breeches.

INSTALLATION CLOSES MEET OF SHRINERS

LOS ANGELES. (AP)—With Galway Calhoun of Karem temple, Waco, Tex., named as imperial officer and Baltimore selected as next year's convention city, the imperial council of the Ancient Arabic Order, Nobles of the Mystic Shrine, went into the final sessions of its 64th annual meeting here today.

Installation of the newly-elected imperial divan, with Andrew A. D. Rahn of Zuhrah temple, Minneapolis, as imperial potentate, featured today's ceremonies of the imperial council.

Calhoun was named to the post which in 11 years will lead to his election as imperial potentate when he received 395 of the 609 votes cast. John H. Zink of Boumi temple, Baltimore, received 111 votes and Stephen S. Jones of Kossar temple, Louisville, Ky., 103.

Baltimore's selection as next year's convention city became assured when Atlantic City and San Francisco dropped from the contest.

Three days of pageantry and fun which have attended the more serious business meetings of the imperial council, will reach their climax tonight in the motion picture electrical pageant in the coliseum.

KIDNAPED BOY'S BODY FOUND; ARREST MADE

(Continued From Page 1) Call, without any show of emotion, led Hoover, himself, and a squad of agents to the dense thicket where the dead body had been left, without an effort at burial. Little remained but the skeleton and fragments of the pajamas the 5-year-old tow-head wore when he was seized from his bed May 28.

EARLY FUNERAL PLANNED When it was explained what condition the body was in the boy's father decided not to look at it. Friends of the family said they planned an early, private funeral.

It was McCall who called Cash's attention to the third ransom note two nights after the abduction, saying he found it on the floor of Cash's apartment and that the kidnaper apparently had slipped it under the door.

Sheriff Coleman, suspicious because the note had been wadded into a ball, arrested McCall June 1. After questioning he was released, with G-men shadowing him. The following day he joined the volunteer possemen hunting for clues over the very ground where the body and the ransom were hidden. That night authorities picked him up again and he has been held ever since in a detention cell at the FBI office atop a downtown skyscraper.

WIFE LEAVES TOWN There he could be protected from violence, but Princeton received the news that the case had been "broken" without any great stir. McCall's wife and her mother had left town and their whereabouts were not disclosed.

In addition to recovering the ransom, the authorities also found the shoebox in which Cash delivered the 1500 bills of small denomination. It had been torn to pieces and hidden beneath a stone in a palmetto clump.

The locations of the body, the ransom and the shoebox indicated the locale of the entire crime never ranged farther than two miles from the Cash home. This circumstance apparently strengthened authorities in their belief McCall carried it out by himself. He did not own an automobile.

STATE CASE Worley took charge of the prosecution as Hoover indicated no federal law apparently had been violated and the kidnaper should be tried in the state courts. Whether he is charged with murder or kidnapping for ransom, he would face a possible death sentence upon conviction.

Sheriff Coleman said McCall bore generally a good reputation in Princeton and Sheriff Frank Hancock of Jasper, Fla., his birthplace, described the suspect as "a boy who sometimes got into mischief, but never into any real trouble."

Convicted Slayer Waits Two Years In L. A. Jail

LOS ANGELES. (AP)—Convicted nearly two years ago of the "rattlesnake murder" of his sixth wife, Robert James, Los Angeles barber, is still in the county jail awaiting a supreme court decision on his appeal.

In nearly all cases, convicted slayers are transferred to San Quentin prison within a short time and the high tribunal rules on appeals within a year.

If James' appeal is denied, he will be hanged, as the conviction was returned before the gas chamber execution became effective. His appeal was based on the fact that live rattlesnakes were produced in court. He charged that Judge Charles Fricke erred in allowing the reptiles to be shown, and that they prejudiced the jury.

L. A. BROKER IN COURT LOS ANGELES. (AP)—William H. Whitcomb, investment broker, pleaded not guilty today to an indictment charging he swindled \$167,000 from Mrs. Violet Cruger, former wife of Rodman Wanamaker, New York department store owner.

U. S. WARNS OF MEXICAN LAND GRANT RACKET

A warning to "unsuspecting victims" against possible attempts to revive the "Mexican land grant racket" which thrived in Southern California nearly a decade ago was issued to Orange county by officials of the U. S. department of interior.

The warning followed announcement by Commissioner Fred W. Johnson of the General Land office that he had refused to accept filing fees for a proposed new homestead entry on 240 acres of land in the Rancho Lomas de Santiago area east of Red Hill and north of the Irvine ranch in Orange county.

Johnson returned the fee "with the reminder that validity of ownership growing out of the early Mexican grants had been definitely determined by congressional enactment in 1851 and upheld by subsequent federal court decisions, with the result that no portions

Candidates to the north of him, candidates to the south of him, volleyed and thundered . . . and Supervisor N. E. West of Laguna Beach prepared today for the political fight of his life.

Four men already oppose the peppery Fifth district supervisor, who seeks reelection, and at least one more candidate is certain to file for nomination for West's job within the next few days.

Two more candidates took out papers today for West's job as J. W. Sauer, Tustin rancher who was a candidate for the position twice before, and James E. McKeever, Laguna Beach accountant and former newspaperman, appeared as West opponents.

Dr. C. G. Huston of Costa Mesa, nosed out by a mere handful of votes in the 1934 primaries, is expected to take out papers before the end of the week.

West already was opposed by Lloyd Clairs, Newport Beach councilman, and Dan Mulherron, mayor of San Clemente and former county WPA director, before Sauer and McKeever took out papers.

Meanwhile Joel E. Ogle, young Santa Ana attorney, took out papers for nomination as a candidate for district attorney. He must run against Elmer Guy of Brea and George F. Holden of Anaheim, who have taken out papers; and incumbent W. F. Menton, Alex P. Nelson and W. Maxwell Burke of Santa Ana, considered safe candidates.

James B. Tucker, candidate for superior judge, department one, also took out papers today to round out an even half-dozen men seeking two posts on the superior bench. Tucker will oppose incumbent H. G. Ames and James L. Davis in the department one race.

McKeever, 28 years old, has lived in Laguna Beach three years, having worked as circulation manager and police reporter at the South Coast News. He is a graduate of the University of Iowa and did graduate work at the University of California.

The old scheme resulted in collection of more than \$900,000 from victims, Johnson said.

SOUTHERN COUNTIES GAS COMPANY

Invites You - TO ATTEND THE

MODERN SCHOOL OF Gas Cookery

A Modern Gas Range is the "spice of life" . . . providing all the heat variety needed for completely satisfactory cooking results. Complicated menus requiring every burner, or delicate cakes which demand precise oven temperature may be attempted with confidence. You may be sure of the results. Remember, few modern conveniences produce the pleasures provided by the modern automatic gas range.

LOW TEMPERATURE COOKING has increased in popularity with the advent of the clock-controlled gas range. It has long been known that beans, meat and fowl were indescribably tender and toothsome when slow-cooked but it took time to watch them. Now a clock turns oven heat on and off. A roast, or a whole dinner, may be placed in a cold oven. At the proper time the clock turns on the heat and cooking proceeds until serving time. Recipes for low-temperature cooking have been created by the Modern School of Gas Cookery.

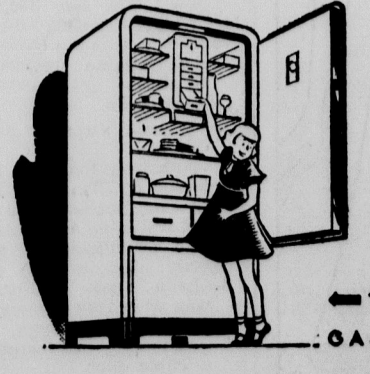

GENUINE BROILING is a modern gas range specialty! The new smokeless broilers operate speedily and effortlessly. They provide an easy way to serve a delicious steak or chop dinner on short notice. They also toast perfectly. Bread takes on a rich golden brown and has that real "toasted" flavor too, when placed in a gas range broiler oven.

BAKING-BOILING-SIMMERING-FRYING Every phase of cooking is accomplished easily and satisfactorily with a modern gas range. Top burners respond instantly to the touch. They provide innumerable shades of heat from almost imperceptible simmer to full boil. The oven burner has its automatic controls for baking. See the beautiful modern gas range in actual demonstration at the Modern School of Gas Cookery.

MRS. LUCILE MARTENS conducts the new Modern School of Gas Cookery Wednesday, Thursday and Friday mornings, at 9:30 o'clock, June 15th, 16th, 17th, Ebell Club Auditorium, 625 French St.

Above: Mrs. Martens displays an appetite tempting "mixed grill" prepared in her testing kitchen. Hand-picked full-ripe tomatoes, precooked potato wedges brushed with rich butter, and a thick slice of tender ham make up this delicious food combination. Nothing is tastier than a properly broiled mixed grill . . . and there's nothing like gas for broiling!

And Remember

THERE'S NOTHING LIKE NATURAL GAS FOR WATER-HEATING, HOUSE-HEATING, REFRIGERATION

By MILLARD BROWNE

If you never locked yourself out of your own car, you're lucky. Because a half dozen people a day do it in Santa Ana. Mostly women, each one thinks she's the only person who's ever done it when she humbly calls one of the city's four locksmiths out to fix it.

Biggest job a locksmith has, in fact, is replacing car keys or breaking into cars that have been locked and the key either lost or left inside. Good percentage of the lock-out jobs are at night, too, and one of Santa Ana's key specialists remembers when he was called out of bed three times in one night, all after 1:30 a. m.

Auto makers and locksmiths have a game all their own: Manufacturers always try to make a lock that can't be picked; the locksmiths have to match them at every turn. It becomes quite a game.

Reason motor-makers change their locks so often, naturally, is because whatever a locksmith can open, there must be a few smart crooks who can do it too.

Local key-men are called to open everything from jails to trunks, often have to break into safes. Funniest safe job: One that had nothing in it but a gallon whiskey jug; after it was open the man admitted that's what he was after anyway.

Santa Ana key-men (Hawley's Sporting Goods store, Henry's Cycle shop and Al Jasper's lock and key shop) must have about 2000 kind of blanks on hand for everything from glove compartments to front doors, though most calls are from motorists.

Groove into which a key fits is called the "key-way" and notches are known as "cuts." Cuts have 10 standard depths (numbered 1 to 10) and keymen can tell by looking at them what the number of each notch is.

The key's groove to match the key-way is as important as the notches, and with intricate locks each must be accurate right down to a "gnat's whisker."

Though locksmiths must know nearly everything about every lock, there are a few short-cuts. Handiest are code-books which describe all standard keys by number, available only to established key-men (although no bond or special permit is required of locksmiths). Code-book for all trunk keys shows an actual picture of each key, and duplicates are made by measuring the picture with a micrometer.

Only job the average locksmith won't touch is where a prospective customer brings in a wax mold or picture of a key, since the keyman has no reason to believe the patron actually owns the key.

Locksmiths rarely run across criminals bold enough to bring them a crooked key, anyway. Closest thing they've had to it: One woman said she was locked out of a car parked by the police station; while the keyman was opening it, a policeman came up, pointed out the car belonged to her divorced husband and that she had no right to it.

Few days ago Jasper was called to open a stolen car found abandoned behind a sign post; the owner, who had been notified that the car was found, accompanied by Jasper, but when they got there it was gone. The thief apparently hadn't abandoned it at all; he'd just parked it there, then maybe gone to do some shopping.

Next to opening cars, locksmiths are called most frequently to get into houses where the key has been lost or left inside. One lock expert recalls his most embarrassing experience: The lady locked herself into the bathroom and had him come and pick the lock.

Fanciest key-cutting machine is an automatic one at Jasper's shop: Using the original as a guide, a cutting wheel cuts a duplicate in less than 30 seconds.

There are a dozen different "sure-fire" systems for opening things, and key-men must know them all, try another one if the first doesn't work. Standard way to crack safes: Drill a little hole (a different place in each make of safe) and line up the tumblers with lock-picking tools.

Locksmiths carry 15 or 20 different kinds of picks, must take other gadgets along when they're called on a job; when they don't know in advance what the job is they have to take half their shop along.

All autos use a different lock, many change the style two or three times in the same year. Toughest to pick are General Motors and Ford locks, while Chrysler refuses to cooperate with key-men by not putting numbers on their locks.

Trickiest auto locks are the "spool tumblers" on Fords; they give trouble, because locksmiths think they have them picked, then find the tumblers will only turn an eighth of an inch, won't open the lock. General Motors use a locking-bar lock, and key-men won't tell how they go about opening it.

Key-men's prices have stayed uniform (25 cents to duplicate, 50 cents to cut new ones by number, \$1.50 for an outside call) since the official scale was instituted by the now-defunct American Association of Master Locksmiths.

Lifeguards Draft Plans To Meet Future Emergencies

CO-ORDINATED SYSTEM, TOPIC AT NEWPORT

NEWPORT BEACH.—Preparation for any future disasters or emergencies was the keynote of an all-day meeting of the Public Beach Co-ordination committee here under direction of Frank Crocker, Newport life guard chief.

Plans whereby lifeguards on all Southern California beaches will be instantly available in case of flood or other waterfront disaster were drawn up at the meeting, attended by life guard chiefs representing public beaches from San Diego to Santa Barbara.

Main objective of the life guards would be to provide a co-ordinated system of furnishing boats for rescue work, and to handle other duties of rescue work until civilian disaster workers can be mobilized to take charge.

Attending the conference were Bud Higgins of Huntington Beach, vice president of the co-ordination committee; Life guard Captain George Watkins and Don Jackson, disaster co-ordinating council, Santa Monica; C. P. L. Nichols, superintendent of aquatics, and Basil E. Rice, director of the major disaster committee of the fire department, from Los Angeles; Captain Henry Coleman, Los Angeles county life guard system; Captain Roy Miller, chief of the Long Beach life guards, and Owen Murphy, chairman of the Long Beach police disaster relief committee; Captain Myron Cole, Los Angeles city life guards, and secretary of the Pacific Beach co-ordinating council.

'CRIME SCHOOL' AT WEST COAST

Must every bad boy turn into an adult criminal?

That is the question posed and answered by "Crime School," the Warner Bros. picture which comes to the West Coast theater today with a brilliant cast headed by the effective aggregation of youthful actors who became famous as the "Dead End" boys, Humphrey Bogart and a talented newcomer, Gale Page.

Frankly aligning itself on the side of the modern methods of dealing with juvenile delinquency, which are designed to avert the formerly inevitable progression from "bad boy" to "bad man," the picture exposes evils of the old reformatory system, still widely used.

It follows the fates of six boys, all typical products of the New York slums, after they have been "sent up" for petty crimes, and shows by how narrow a margin they are saved from becoming desperate criminals.

"Under Western Stars," the second attraction, is something new in outdoor action dramas. The story brings a cowboy from the Far West to Washington, D. C., as a congressman. Roy Rogers, as the two-fisted cowboy-congressman, is elected on a platform of bringing relief to the drought-stricken ranchers of the dust-bowl area. How he outwits officials of a water company which has dammed up the rancher's only water supply, provides a climax. Smiley Burnette and Carol Hughes have leading roles.

Short subjects include a color cartoon and World News events.

NEWPORT TEACHER WINS SPEAKING TEST

Arthur Kruger, teacher in Newport Beach schools, won first place in the speaking contest of Smedley chapter of Toastmasters at Daniger's cafe last night. The winning talk, "A Plan to End All Plans," was in the nature of a humorous economic farce.

R. C. Smedley took second place with a talk entitled "After 1847, What?" Other speakers and topics were: Robert Scove, "The Range"; Dr. J. P. Davis, "Protestantism"; and Warren O. Mendenhall, "What June Means to Me." Inasmuch as vacation time has begun to break into the schedule of the club, several of the talks were extemporaneous, as was the service of David Cherry as toastmaster of the evening.

A special feature of the evening was an innovation in criticism. Supt. H. O. Ensign brought to the club an instrument by which he made recordings of various speeches. At the close of the contest these recordings were played back to the group, and comments made by the speaker as well as others. General Critic J. Lee Woods made closing remarks. Supt. H. O. Ensign of Newport Beach presided in the absence of President Sam Long of Tustin.

TOWNSENDITES LACK VOTES FOR PARTY

Fate of the proposed Townsend pension group as a political party on the August primary ballot apparently was sealed today—although Orange county Townsendites had almost four times the number of registrants they would need if other counties showed such strong pension support.

To get on the ballot as a party, Townsendites would need petition signatures totaling 10 per cent of the vote cast in the state in the 1936 gubernatorial election, or registrations of one per cent of that total. County Clerk B. J. Smith reported.

The party has 1918 registrants here—still a potent bloc for which major parties are bidding—although only 504 would be needed if all other counties showed Townsend strength.

Northern counties, however, have only a scattering of Townsend registrations; and officials there said apparently the party will not qualify for a place on the ballot.

Locally, the pension group was only slightly short on the other method, that of petitions asking that the party be placed on the ballot. On a basis of 50,436 votes cast here in 1936, the pension group would need 5043 signatures. Today they had 4723.

Clerk Smith today made his report to Secretary of State Frank Jordan on registrations as of June 6, and also a special report on the Townsend situation.

Registered voters in all classifications number almost 3000 more than they did in June, 1936. Smith's report showed. Two years ago there were 62,833 registered voters in Orange county; today there are 65,820.

Republicans and Democrats each picked up approximately 500 votes since then, with Democrats now leading 35,909 to 28,121.

Socialists and Communists each showed an abrupt decline from two years ago, Socialists dropping from 99 voters in 1936 to 70 in 1938, and Communists losing half their registrants in a drop from six to three voters.

Other registrations as of June 6, according to Smith's report, were 33 Independents, 351 non-partisan, 25 Progressives, 284 Prohibition, and 1106 voters who declined to state party affiliation.

Luncheon

The ever-impressive charm of the Pacific Coast club at Long Beach, with its high Norman ceilings and luxurious furnishings, was setting yesterday afternoon for a delightful party given by Mrs. John P. Scripps and Mrs. Chester Horton of Santa Ana. A long U-shaped table was laid for the luncheon course in the private tearoom in the right wing, and it was a thing of loveliness with great oblong bowls of white pottery brimming with colorful stalks of pink, blue, and white delphinium.

Dainty little combination place-cards and tallies were in checked pink, or blue and white. Mrs. Scripps received her guests in a smart outfit of Cuban colors, yellow, salmon, chateau and coral blue, while Mrs. Horton was attractive in cool white knit with a coolie hat and touches of turquoise. At Mrs. Scripps' right at luncheon was Mrs. Douglas Williams of Los Angeles, Mrs. Horton's step-mother, while at Mrs. Horton's right was Mrs. Charles McDaniel, Jr., who assisted in checking guests as they arrived.

MARY
STODDARDStep-Father Is Now Playing
An Ignoble Role to
Children

Dear Miss Stoddard: My husband has a steady job and earns a moderate salary. By exercising care it is sufficient for all our needs. While I worked we spent more money and did not buy as carefully. Just a case of the more you have the more you spend.

If my children were by my present marriage instead of a previous one I know he would not expect me to work, but because he is not their father he does not understand why I would rather stay home and enjoy them. It makes me feel sad when I think how many childless couples would enjoy a couple of healthy, rolicking children like mine.

Miss Stoddard, I really do not know what to do because my husband has been brutal at times because I have not gone back to work. On occasion I had to hide away from my friends for nearly two weeks until my battered face healed up. Most husbands that I have encountered object to working wives but here is one that is definitely different.

I have come to you with my difficulties in the hopes that you or your readers will be able to offer me a solution to my problem.

In spite of my husband's attitude and beatings, I love him and do not wish to resort to a divorce. Yours sincerely, M. C. O. G.

If you only hadn't written that last paragraph, "C. O. G." there might be some hope of a solution. As your problem stands, I can only say in all fairness, that I have only sympathy and actual pity for those two fine, helpless little children.

Wake up, woman! You pride yourself upon being a good mother. But what kind of an uneducated example are you setting for your young son when you permit your husband to "beat you up"? Do you want to rear him up thinking that this is real love? That a woman doesn't require or respect and consideration from her man? What about your girl? Do you want her to grow up into a spineless creature to be bullied by a yellow coward like the one you are married to?

Well, I want to tell you, right here and now, you are just piling up years and years of grief for not only yourself, but your children as well!

I'll bet if you took your two children and left, showed a little of that fighting spirit you displayed when you were acting so admirably the role of both father and mother, he'd cry his eyes out and do anything to get you back. If he didn't, it would be a sample of the future you must endure with him and you could have a sigh of relief as you realized that it was "good riddance of bad rubbish."

Motto for the installation ceremony was "Follow the Glean." Special guests of the evening were Miss Howard, Mrs. W. D. Guthrie, and Miss Dorothy Decker. Installed as new president was Miss Leone Baxter, as vice president; Miss Alice Campbell; as secretary, Miss Cecelia Plantamura; as treasurer, Miss Laura F. A. Thompson; for service chairman, Miss Mary Wright; for membership chairman, Miss Joy Townsley; finance chairman, Miss Edith Monroe, and social chairman, Miss Catherine Walbridge. PASSPORT TO PERIL

by DAVIS DRESSER

In Miami, Jim Talbot, adventurer, meets James Long, who is his exact double. Long is about to sail for Costanagua, Central American republic, in response to a mysterious letter from Zachary Webb, old-time soldier of fortune. When unknown plotters slay Long, Jim assumes his identity, and sails in his place, determined to thwart his enemies. Aboardship, Jim becomes convinced that a passenger named Strade, and the first mate, Makrin, are connected with the plot against Long. He is blackjacked by Makrin, and imprisoned in his cabin. But on the night before the ship is due at Cochila, Costanagua, Strade's beautiful secretary, Vera, secretly frees him. He hides in a crate of machinery in the hold. When the machinery is unloaded and stored in a warehouse, he waits until night, then starts to make his escape. Just then, Strade and Makrin enter the warehouse.

CHAPTER XI

A POWERFUL flashlight was suddenly switched on, its beams playing eerily over the interior of the warehouse. Jim drew back into his dark corner, holding his breath. What rotten luck if he should be discovered just when he was so close to freedom!

Strade and Makrin, however, had paused just inside the doors, which they had closed behind them, and were engaged in an argument. Jim strained his ears to hear their words.

"He heard Strade say brusquely. 'You don't get one cent, Makrin, until I check up on what's been unloaded here! The last cargo was short!'"

Then Makrin: "That wasn't my fault! There was a mix-up at New York. But everything got through this time. And, I'll tell you, it isn't any too easy slipping guns and ammunition past the Customs under the guise of machinery. I've done a good job for you!"

"No reason why you shouldn't do a good job, being paid well enough!" Strade snapped.

Jim had tensed. Guns and ammunition! So some of these cases that supposedly contained machinery actually held contraband arms! And Strade was paying Makrin to smuggle them in! Why? What was the man's game?

Strade's next words increased his tension. "You didn't do such a good job when you let that fellow Long get away! Of all the stupid blundering! With him loose in the country, the revolution will be quered! That guy's got to be stopped!"

"Blame that!" Makrin said bitterly. "I'd take an oath she was at the bottom of his escape. Oh, she acted mighty innocent about it, but she's good at acting innocent. She went soft on the guy! I could choke her!"

"You should have kept an eye on her," Strade growled. "I suppose you thought your 'fatal fascination' was enough to keep her in line. But you can't trust women in a game like this. Never know when they're going to double-cross you."

"She's your secretary!" Makrin pointed out. "Why didn't you keep an eye on her? You're the one that wants Long out of the way."

Less Than 100 Members Now Needed for Concert Series

To the Editor: With the goal less than 100 members away, music lovers are putting every effort forward to hearing, during the coming concert series season, Ezio Pinza, world renowned basso of the Metropolitan, in addition to the other five concerts, which are the Tipica orchestra of Mexico City, Martini, Kathryn Meisle, Casadeus and the Curtis string quartet.

I personally do not think that we realize what Mr. Behymer is doing to help build the culture of our community in bringing these world-known artists to us. He is using his best efforts to give to Orange county music lovers artists that could not be obtained in any other way.

The story of how a father attempts to break up his son's romance with a chorus girl, while the boy is in New York, sets the pace for "The Battle of Broadway," co-feature on the Walker's screen. Principal players are: Louise Hovick, Victor McLaglen and Brian Donlevy. McLaglen and Donlevy are cast in the role of two hard-boiled Legionnaires in New York.

Wife Calls Mate 'Gloomy Gus' in Plea for Divorce

Eleven months of being married to a "Gloomy Gus" is too long, complained Mrs. Muriel Lackman of Long Beach.

Mrs. Lackman filed suit on grounds of cruelty; and her complaint, drawn by Judge Fann of Huntington Beach, said the defendant "had a sort of 'Gloomy Gus' attitude, seeing all things darkly," and also said he never said "I love you."

The couple were married in Long Beach Dec. 18, 1936 and separated Nov. 27, 1937.

Veteran Citrus Grower Gives Market Analysis

60% of Ranchers With Best Quality Will Come Out O.K., He Says

The orange situation, as to price, has not been attractive to growers this year. Many of the less-informed ranchers have become more and more jittery as the Valencia season gets under way, and even the better-informed ones have been busy analyzing their troubles and looking for something to do about them. The Journal has sought a competent analysis of the ticklish problem, and today it found one. Its source is an old-time, successful grower, who, because of the nature of his business, prefers not to be quoted directly. The grower simmers this year's trouble down to these underlying points: First, the supply throughout the United States—in California, Arizona and

J. C. BAND PROJECTED

A drive for organization of a Santa Ana Junior college band next fall has been launched by junior college officials and students. It was revealed today.

Provisions already are being made in next year's budget to defray expenses of the band. Dr. D. K. Hammond announced, and new uniforms and some instruments have been virtually assured.

Cooperation of the Quarterback club, downtown booster organization, has been promised, since the high school or NYA band has been used in the past to play during junior college football games.

Under present plans, the band would be organized as a two-unit course under direction of Alan A. Revell, music instructor, with rehearsals scheduled for three times a week. Leading the campaign for formation of a college band have been Fred Beecher and Bob Baines, students.

PACT BREACH LAID TO P. E.

Charging breach of a 25-year-old agreement for maintenance of a railway station at Loftus, between Brea and Olinde, the Graham-Loftus Oil corporation today filed suit in superior court against the Pacific railway for return of the land.

The railway got a right-of-way in 1910, the oil firm alleged, on condition it maintain a station at Loftus. The railroad company was temporarily released from that condition in 1926, but the company demanded reinstatement of service Sept. 24, 1936, the complaint says.

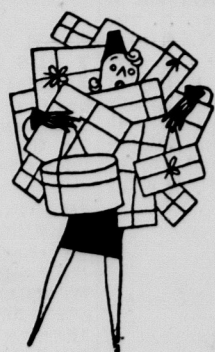

Despite the demand, the Graham-Loftus company alleges, the Pacific Electric company has refused to reinstall the station and has stopped passenger service completely. The oil company asks judgment for return of the property and a decree quieting title to the land.

FATHER'S FAMILY AWARDED GIRL; MOTHER GETS DIVORCE

A 4-year-old girl, center of a bitter divorce suit between her parents, had been sent today to live with her father's parents, as her mother was awarded a divorce. Superior Judge G. K. Scovel, at the conclusion last yesterday of a two-day court fight between Herman E. Milbrat, son of an Anaheim rancher, and his wife, gave custody of the child to Mr. and Mrs. Julius Milbrat, sr., ordered young Milbrat to pay \$100 attorney's fees and \$25 a month alimony, and awarded the divorce to the young man's wife, Marguerite. Milbrat had sued his wife for divorce on grounds of misconduct with Orville Dye, Denver taxicab driver named co-respondent. Mrs. Milbrat countered with a cross-complaint on grounds of cruelty and nonsupport.

Sewer Board To Seek Aid For Big Job

YMCA PLANS SWIMMING CAMPAIGN

With the closing of schools, the local Y. M. C. A. opens a campaign to teach boys and girls to swim. The beginners' classes will be a regular feature of the work at the "Y" until the first part of August.

D. H. Tibbals is to have general charge of the swimming classes, assisted by David Hunter, who has had experience in such instruction in the past. Morning hours will be given over to instruction and afternoons to recreational swims.

Beginning Monday, June 29, and continuing five mornings weekly, there will be classes for boys from 9 to 10:30, and for girls from 10:30 until noon. Both beginners and advanced swimmers will receive instruction.

As the number acceptable in each class is limited, advance reservations are urged by officials. Recreational swims will be provided for boys on Monday, Wednesday, and Friday from 2 to 4 o'clock. Girls will have the same hours on Tuesday and Friday afternoons.

Another feature of the program this year will provide a "free swim" period for boys in Santa Ana on Friday evenings from 7:30 to 9, and on Saturday afternoons from 2 to 4. This is open to boys generally without limitation as to membership, officials state.

Regular classes for women, on Tuesday and Thursday mornings, will continue through the summer. Swimming lessons for men can be arranged by special appointment with the instructor during the late afternoon and evening hours.

\$7500 WON IN MISHAP

Judgment for \$7500 against two San Diego youths involved in an auto crash near Serra more than a year ago had been signed today by Superior Judge G. K. Scovel in favor of a Long Beach carpenter and his wife, injured in the accident.

Plaintiffs in a superior court suit, Mr. and Mrs. Joseph Klenhofer of Long Beach got judgment when Keith Moon and Woodrow Skinner, defendants, failed to appear. Mrs. Klenhofer was given judgment for \$5000 and her husband was awarded \$2500 plus \$8 costs.

The Klenhofers were badly injured March 14, 1937, when a car owned by Skinner and driven by Moon crashed into their parked auto near the Serra intersection of the coast and 101 highways. Moon was arrested on the spot, charged, pleaded guilty and was fined \$500 and sent to the county jail for a year.

Degree to Be Given Alice Iona Lamb

Alice Iona Lamb, daughter of H. J. Lamb of 530 South Sycamore street, Santa Ana, will receive her bachelor of arts degree in the physical education department at Santa Barbara State college tomorrow, it was revealed here.

Santa Ana Woman To Receive Degree

Virginia Inadine Peck of 308½ North Sycamore street will receive her bachelor of medicine degree from Northwestern university at the eightieth annual commencement exercises in Dyche stadium, Evanston, Saturday afternoon.

Miss Peck is one of 11 California students to receive degrees at Northwestern this year.

People wanted to know why, and didn't he say he wouldn't run for central committee any more?

The explanation arrived yesterday afternoon. The six sets of papers came back—but they didn't carry the postmaster's name. They were for John J. Holland, Brea; Harry Julius Starr, Yorba Linda; Robbie Anderson, Verne Wilkerson and Timothy F. Shea, all of Anaheim, and Lloyd S. Verry, Fullerton—all candidates for the central committee.

Hervey's Slight-of-Hand Demonstrated in Nonsupport Case Filed in Orange Court

By FRANK ORR

The county's five "fee officials" can reasonably expect Edgar B. Hervey, hair-trigger San Diego attorney, to peek in their windows about the first of next week.

Hervey probably will show up then for a "conference" with Dist. Atty. W. F. Menton on the suits which will net Hervey 2½ per cent if they result in collection of fees.

But Hervey will be here before that, in his old role of defense attorney. His famous slight-of-hand has developed already—although the case is the common, or ordinary variety of nonsupport charge. It's already interesting, though, even if the defendant hasn't appeared in court.

Mrs. Evelyn Snider signed a complaint May 12 before Justice Cal Lester of Orange, charging her former husband, Charlemagne A. Tower of San Diego, with failing to support their 11-year-old son.

Judge Lester wrote "300 ball" on the warrant and Constable George Barley set it to the San Diego sheriff's office.

Then Judge Lester got a telephone call. It was Hervey wanting the defendant released on his own recognizance (without having to post bail). Judge Lester said no.

Hervey hung up. Barley heard Tower had been arrested. Lester sent a message on the teletype to the San Diego sheriff's office, demanding either

his prisoner or his \$300 bail. In answer, he learned that Tower had been arrested—but that Hervey had taken him before Justice Phil Smith of municipal court, and had the prisoner released on his own recognizance, despite the mandatory \$300 bail set by the issuing magistrate!

Then the chuckling Hervey called Judge Lester, and promised to have Tower in Orange Friday afternoon for preliminary hearing. Judge Lester, not too sure the procedure is entirely according to Hoyle, is expecting them both.

Deputy Sheriff Bob Steinberger is really running for constable, and he has a lot of friends who will help him make the race against Incumbent Charles Mitchell a good one.

But Steinberger's candidacy, while it lines him up for a shot at a pretty good constable's job, also puts Sheriff Logan Jackson in a very strategic position.

Mitchell's partner, Constable Jesse Elliott, is running for sheriff—against Jackson. Should Mitchell be unopposed, he could ignore Jackson's friends and campaign actively for Elliott.

But with an opponent, he's going to have to spend his time and money on his own candidacy, and won't be able to ignore anybody with a vote.

Jackson, who hasn't quite announced his candidacy, undoubtedly is pleased.

300 OF 'ZEKE'S BUNCH' TO PICNIC SUNDAY IN IRVINE

Next Sunday, June 12, at Irvine park, some 300 members of "Zeke's Bunch" will gather in eighteenth annual picnic.

According to Prof. J. J. Ziellian, who from 1889 to 1909 was principal of the Tustin school. On his retirement some 112 pupils gave him a party, which they refused to call "farewell."

On that occasion it was decided to hold a picnic every year to compliment the teacher who had endeared himself to the student body. That annual affair has now continued to its eighteenth anniversary, and next Sunday from all over the state former pupils will gather at Irvine park to congratulate their teacher, and to fraternize again with pupils in their own particular classes.

The picnic is unique in its organization and continuity. Everything is informal. Those who are unable to attend send letters of good will, and regret their inability to mingle with "Zeke's Bunch." The good old days are again revived, and a picnic dinner enjoyed. The average ages of participating "picknickers" is between 50 and 60. All are officially notified of the time and place, and

if at all possible respond, as the event grows dearer with the passing years.

Prof. Ziellian is looking forward to next Sunday's gathering with great satisfaction.

In commenting upon the friendships he made during his scholastic work Prof. Ziellian related an incident which happened a few years ago while he was in Los Angeles. Traffic was particularly heavy at the intersection he wished to cross, and he hesitated. About this time a car reached the curb and the driver asked the professor if he did not wish to go some place. He did. It was one of "Zeke's" old scholars.

It is this type of friendship which will mingle next Sunday at Irvine park.

Townsend News, Views

By
WALTER R. ROBB

At the last check-up at Townsend headquarters in Santa Ana a total of 113 had signed up to go on the special Pacific Electric cars which will carry passengers to the opening day of the National Townsend convention in Los Angeles on Sunday, June 19. The cars will leave the P. E. station in Santa Ana on East Fourth street at 9 a. m., and will stop to pick up passengers at Townsend hall, at 509 West Fourth, also at Franklin school, 1512 West Fourth, and then at Garden Grove, which will be the last stop this side of the Los Angeles Coliseum, where the big doings will be held. The program begins at 1 p. m., and will last until late in the afternoon. The special cars will wait until the program has been completed, and will then make the return trip. The cost of the round trip is \$1, and Fred Nelson, who was responsible for making arrangements for the special cars, urges all who have signed up to go immediately to Townsend hall and purchase tickets, where same are on sale. Better do this at once to make certain of your place in one of these cars. At the rate folks are signing up there may not be room for all parties wanting to make this trip. Naturally folks who have purchased tickets will have preference over those who have not. Buy your tickets as soon as possible.

This column again urges upon the attention of Townsend clubs of the county and district to be sure and elect delegates and alternates to the Townsend district convention, being held in Pilgrim hall, in Riverside city, next Saturday afternoon at 2 p. m. Each club will be allowed one delegate for its first 50 members or under, and another delegate for each additional 50 members. Also provide alternate delegates so that if an accident or some other unexpected happening prevents your delegates from being in the convention, your club will be represented in the convention's deliberations.

The convention is being called for the important purpose of threshing out what will be the political program of the Townsendites of the district. Some sentiment exists in favor of sponsoring a candidate for congress on the Townsend party ticket if the party qualifies for a place on the ballot, but the general opinion seems to be that endorsing of congressional candidates on either the Democratic or Republican party tickets would be more likely to bring satisfactory results. At any rate, that is what this convention will attempt to determine in the way of a political program for the Townsendites of the district. Be sure, therefore, to be represented by a delegate or delegates in the convention.

The new Anaheim Townsend club headquarters is to be dedicated next Sunday afternoon. In celebration of the event the Anaheim Club No. 1 is sponsoring an Orange county mass meeting for 2 o'clock that afternoon. Thomas Kuechel, Orange county 76th district assemblyman, will act as master of ceremonies and Rev. J. Nation, Trinity Baptist church of Long Beach, will bring the afternoon message and conduct the dedicatory service. Rev. Grant Smith of Anaheim will offer the invocation. A letter from Mrs. Ida A. Freeman, club president, tells of the tremendous amount of work which has been involved in changing to the new hall. A cordial invitation is extended to the Townsendites of the county to attend the Sunday afternoon meeting.

The Huntington Beach Club No. 1 is presenting the comedy, "The Daughters of Freedom and Sons of Liberty," at 8 o'clock this evening. Another play, "The One Man on the Jury," will also be presented. The cast for these plays came from Santa Ana Club No. 6, and the author is Mrs. Lillian Rockwell of the same club. A. D. Marshall, president of the Huntington Beach club, will preside over the introduction of the group to the audience.

Santa Ana Club No. 3 is holding a business session at 7:30 this evening in Townsend hall on West Fourth street. Phillip S. Doolittle will preside, and during the evening delegates to the next Saturday's district convention will be elected. Music and other entertainment will be offered later.

Orange Club No. 2 is meeting tomorrow evening at 8:30 in the Townsend club building at 151 South Glassell street to enjoy a feed of strawberry shortcake and coffee. Mrs. Abbie Gould, president, will preside over a business session that will be held at 7:30 p. m. Next Saturday this club will hold a cooked food sale and a bazaar in the same location. The affair will last all day. Your patronage is solicited. This news comes from Mrs. Carrie Stevens, club secretary.

Santa Ana Club No. 10 is giving an entertainment program at 7:30 tomorrow evening in Townsend hall, at 509 West Fourth street. A grab-bag affair is also scheduled to occur. Mrs. Edith L. Paul will preside over the business session.

Santa Ana Club No. 11 will hold a business meeting in the Franklin school at 7:30 p. m. tomorrow evening. Election of delegates to the district convention will be the chief order of business. Vice President Damp will preside.

Nomination Blanks Shower Charlotte Bacon; Miss Bowen Has 25-Year Courtesy Mark

It looks like Charlotte Bacon, who is employed at the Owl Drug company in Santa Ana, has a lot of what it takes to win the first prize in The Journal's Courtesy and Efficiency Contest. Yesterday the contest editor was fairly showered with nomination blanks for Charlotte. They rolled in from every section of the city.

She was nominated Tuesday and credited with 10,000 nomination votes, so of course these other nominations will have no bearing on her count. For only one nomination blank of 10,000 is counted for each contestant.

However, the nomination blanks show that Charlotte has the city blanketed with friends, friends of the right kind, who are willing to push her ahead in The Journal's contest. If these people rally around her with votes when the ballots begin appearing in The Journal tomorrow and every day afterward until July 16, she should be among the tops when the final payoff comes around. Her friends can help her still more if they will get their friends to save votes for her, too.

The Journal regrets to announce that Mrs. Faye Townsend, head of the ladies' ready-to-wear department of Montgomery Ward, is ineligible to compete in the Courtesy and Efficiency contest. She is a sister of one of The Journal's employees.

Mrs. Townsend has also been showered with nominations from many friends who wished to show their appreciation of courteous attention she has extended to them at Ward's. Rules of the contest say: "Employees of the Santa Ana Journal and members of their families are not eligible."

Miss Margaret Bowen, clerk at Rankin's Department store, knew how to make friends, and keep them. This was excellently illustrated yesterday when she was nominated to the Courtesy and Efficiency contest by a woman residing on South Sycamore street, who wrote on the nomination blank, "I nominate Miss Margaret Bowen because of courtesy to me in line of duty for 25 years." That's one of the finest compliments that could be paid anyone. Now if all of her many friends will pitch in and vote for her, beginning next Friday, when balloting starts, Miss Bowen will have a fine chance of receiving one of the eight awards offered in The Journal Courtesy and Efficiency contest.

Think how some person who has served you well and pleasantly would enjoy an all-expense-paid vacation for two at the Mayflower hotel in Seattle, Wash., with \$50 added for spending money. There are many other awards.

Be sure to spell the name of your candidate properly, and write the name and address plainly, or print it.

Nominations are coming in at a steady pace now, but there will no doubt be the customary flock of last-minute nominations next week; so people always wait and come in just under the wire.

How about you? Have you been delaying sending in the name of some courteous worker who deserves a vacation for two, with all the expense paid? Have you been stalling from day to day on starting them off with the 10,000 nomination votes?

There is a real advantage to any candidate to be nominated this week; the early candidates get the most publicity.

INFORMAL. PELHAM, N. Y.—Members of the congregation of 106-year-old Christ's Protestant Episcopal church may attend Sunday services in picnic and beach costumes now—and bring along their golf clubs and their tennis racquets, too.

Sports attire to come to church in was granted by the pastor, the Rev. Edward Thomas Taggard.

"It cannot be considered a desecration of the Sabbath to indulge in wholesome recreation," he observed.

SUCCESS FORMULA. PITTSBURGH—Esther Finch, 18, youngest student to receive a diploma from the University of Pittsburgh, let it be known she's no "bookworm."

"I'm not a student," she said. "I'm a procrastinator. I never study before midnight; I never let studies interfere with my social life."

FIREBALL WATER. PORTLAND, Ore.—Give Freddie Hutchinson, Seattle's 18-year-old pitching marvel, a drink of water and he's a new man.

Freddie weakened in the eighth inning yesterday to give Portland two runs. Then, while 6000 amazed fans looked on, Freddie called time out, casually walked off the mound and took a long drink.

Refreshed, he stopped the Beavers cold and won his ninth Pacific Coast league victory this season, his first in professional baseball.

THE LION AND THE LAMB. PASCO, Wash.—The Mormon cricket invasion has caused a social revolution in birdland.

Kenneth Liecht, cricket control supervisor, said his crews daily report seeing giant hawks and other predatory birds side by side with smaller bluebirds, quail and finches, stuffing themselves with succulent insects.

OTT, HUBBELL REGAIN LEAD FOR GIANTS IN TWIN BILL

ALONG THE COAST
—with—
ANDY ANDERSON

Decorated Day, like most other holidays, and the Sunday preceding it, like most other Sundays, found ocean angling very discouraging, with very few fish being taken. This slump lasted until Wednesday, when most of the boats plying the Pacific waters near us brought in fair catches of fish. Thursday found fishing really good at most places, and continuing catches over this past weekend leaves the anglers with hopes that the season is with us for good at last.

Takes of Tuna during the past week have dropped considerably, however, but the numbers at the waters in large school of these fish was seen in the Santa Monica bay recently, and marks their first appearance in these waters in numbers for the past eight years.

TUNA AT CATALINA
A few tuna were taken during the period at Catalina, but the fish are still a little slow in taking live bait. Trolling boats produced the best results, with George Thomas, who probably takes more marlin than any Pacific angler, taking 19 blue fin during the week. Purple seiners are netting lots of them, with two hauls of 15 and 28 tons respectively being called to our attention.

We fished from the Sea Angler recently and took four yellows. A check on the catches for the other boats after docking showed this high boat for the day. Skipper Miller, whom we believe to be one of the best fishermen in San Diego, hit the spot off the north island, and stayed there while the other boats moved. Declaring the fish would come to the surface at the place earlier than any other bank at the islands. His judgment proved right, for we hit the fish. Only the radio telephones kept the other boats from returning with poor catches.

Tuna were unnoticed at the islands on the trip, as the water was a little too dry for these fish. Miller thinks this will be one of the best seasons for tuna in many years, and looks for the fish to start hitting at any time.

OCEANSIDE RESULTS
Oceanside showed us a very good catch of barracuda and bass on Saturday. We reached the pier just as the boat was docking, and the passengers seemed well satisfied with their day of sport. Bait is reported excellent at this time.

Barracuda, bass and white sea bass have been taken in the Newport area during the last few days, according to Sportfishing headquarters on the Coast Highway. There are lots of yellows in the water, but barracuda seem to murder the bait before the fighters have their chance at it. A few nights have produced good catches of croaker from the bait receivers here.

Boats from Santa Clara Avenue in Long Beach have had excellent results both locally and at Catalina since Decoration day, with loads of barracuda, lots of bass, and good catches of white sea bass and yellows. A few tuna also reported. The first boat leaves this landing at 3 a. m., and the last one departs at 7 a. m. Bait good and plentiful.

From San Pedro's First Street Landing we find good catches of yellows, lots of bass and barracuda, some white sea bass, and a few tuna were brought in by the Big Sunshine II. The largest white sea bass of the season fell victim to an angler from this boat last week and scaled 65 pounds. That is a lot of fish, especially white sea bass. This boat leaves daily at 6 a. m.

As already reported, tuna hit Santa Monica Bay this week, but as yet none have been taken with bait. Good catches of barracuda, halibut, and white sea bass are reported from Redondo Beach, Ocean Park and Santa Monica, while Malibu is offering good bass and halibut fishing. The second jawfish of the week was taken from the club barge at this place on Friday. Incidentally, we believe this to be one of the best spots on the coast for these big bass, ranking second only to Anacapa Island.

SURF FISHING SPOTTY
Surf fishing has been spotty locally, with the best catches of fish being taken from the large beach in the vicinity of Hotel Laguna. The smaller beaches in the coves are not very good at this time. The best surf fishing on the coast is reported from the San Onofre.

It looks like the season may now be near its best. Almost any kind of fish may be taken by choosing your spot. For bass and halibut, the best bet is the Santa Monica bay. Catalina is furnishing a few tuna—yellows, barracuda, white sea bass and bass. The big help off Long Beach offers barracuda, white sea bass and a few yellows, while San Diego, as always, emphasizes yellows and tuna.

FAVOR SNEAD IN U. S. OPEN
DENVER. (AP)—Over picturesque Cherry Hills, the mile-high course where accuracy is the double watchword, the country's foremost shotmakers sharpened their weapons today for the first round of the 72-hole National Open golf championship.

As the field of great and near-great teed off in what shaped up as the most unpredictable title chase since Bobby Jones retired in 1930, the role of favorite was filled by Sammy Snead, long-hitting West Virginian and sensation of the 1937 divot battles.

Raps 12th Homer

Master Melvin Ott, one of the hardest hitters in baseball, whaled his 12th home run of the season to spark the New York Giants to a 4-2 victory over the Chicago Cubs yesterday.

LIONETTES OF ORANGE ARE BLANKED, 4-0

Columbia Pictures, which lost an 8-7 thriller to Orange's Lionettes Monday because they took out their ace pitcher, didn't make the same mistake again as Genevieve Beck, the Lionettes' jinx from way back, led her club to a 4-0 "revenge" victory in Hollywood last night.

All the Columbia scoring was done in the fifth inning when four hits were turned into four runs as a result of a "fluke" home run inside the ball park. Miss Beck started it with a single and the bases were loaded on two more hits. Edith Richards cleared the bases with a bounding hit over third base which rolled out of the playing field.

The Lionettes close their first half of the Major Girls' Softball league schedule tomorrow night against Can-Tan. Columbia can overtake Yankee's Market if the leaders are toppled tonight by Bank of America and Monday by Columbia.

Diamond Walnut plays Orange in the Orange City park Monday night in an exhibition game.

CUBS JOLTED IN NATIONAL LEAGUE RACE

Ott Raps Homer to Win First; 'King Carl' Cops Second

By SID FEDER
Associated Press Sports Writer
Somewhere in that valley reserved for baseball's departed great the old man looked down today and had a hearty chuckle over the doings of the New York Giants in general, and King Carl Hubbell and Master Melvin Ott in particular.

He's been gone six years now, but he found things just about the same. McGraw's boys are there when the chips are down. The old man, of course, was John McGraw. There was only one. And McGraw's boys, naturally, are Master Melvin and King Carl. They were hand-picked by the old man, and learned their A-B-C's from him.

McGraw, you know, used to run the Giants before Terrible Bill Terry's regime. Now Bill has done a swell job, but in his six years in the driver's seat, the two men he's relied on most, and who have let him down least, are McGraw's boys the old man turned over the reins, back in 1932.

OTT RAPS HOMER
It was that way again yesterday. The Giants were riding a losing run, with everything going wrong. They had dropped six out of seven on their western swing.

So it was up to McGraw's boys yesterday—and the result was a double-header victory for Terry's Terriers, which boosted them right back to the top. In the opener, Master Melvin exploded his 12th homer of the season in the 10th inning to break up the game for a 4-2 Giant win. Then King Carl went out in the nightcap and took care of the rest of the job. Only five Cubs passed second base, and six fanned as he turned in his usual classic, posting his seventh win of the year by a 4-1 margin.

This last Terrible Terry's troupe in first place by half a game, with everything riding on today's series finale.

Meantime, the other half of last year's nickel World Series, Col. Jake Ruppert's Yankees, are finding it anything but a coffee klatch in the American league wars. They were rudely clubbed around in both ends of a double-header by Jimmy Dykes limping Chicago White Sox for second place.

Gerry Walker's homer in the ninth and single in the 13th gave the Sox the opener, 11-10, and Bill Dietrich's pitching through the first seven frames was enough for a 10-6 Chicago victory in the nightcap, although the Yankees came back in the closing two frames.

RED SOX ADVANCE
This double defeat gave Boston's Red Sox a chance to pull up to a second-place tie, and they made the most of it. Jimmy Foxx whacked a pair of homers and drove in four runs as Tom Yawkey's go-plated outfit knocked off the Cleveland Indians, 7-6.

Bobby Feller lasted less than seven innings. Brooklyn's Dodgers continued their amazing western invasion with a 7-6 decision over the St. Louis Cardinals on the strength of a five-hitter in the eighth. The equally unimpressive Cardinals made it two straight over Washington by an 11-5 margin, clubbing Wes Ferrell out.

Bob Klinger's six-hitter gave Pittsburgh a 4-1 win over the Boston Bees. Tommy Bridges turned in a five-hitter to pitch the Tigers to a 5-1 victory over the Athletics. The Cincinnati Reds ramped off with a 7-15 win over the Phillies in a night encounter.

YESTERDAY'S STARS
Mel Ott and Carl Hubbell, Giants—Ott's two-run homer beat Cubs, 4-2, in doubleheader opener; Hubbell fanned six to win nightcap, 4-1.

Jimmy Foxx, Red Sox—Hit two homers and drove in four runs in 7-6 win over Indians.
Ernie Lombardi, Reds—Hit two singles and drove in two runs in 7-5 decision over Phillies.
Gerry Walker and Bill Dietrich, White Sox—Walker's homer in ninth broke up game for 11-10 win in doubleheader opener against Yankees. Dietrich allowed five hits for seven innings in 10-6 nightcap win.

Tommy Bridges, Tigers—Handcuffed Athletics with five hits and fanned 10 in 5-1 victory.
Bob Klinger, Pirates—Pitched six-hitter to beat Bees 4-1.
Buster Mills, Browns—Collected three hits and drove in two runs in 11-0 win over Senators.
Cookie Lavagetto, Dodgers—Drove in three runs in 7-6 victory over Cardinals.

Miss Jacobs caught a bad cold last week and the after-effects so handicapped her that she had to stop practice yesterday after a single set.

The Dixie athlete plans to do some running and throwing, the amount of which will depend upon the way the injured leg responds to exercise. Appling may get back into the game within two weeks.

BRITT, MORELLI SEEK SHOT AT MAT TITLE

PAT O'BRIEN TO WRESTLE KEN HOLLIS

LaRance, Keneston, O'Dowdy, Clements Also at 101 Arena

By MATT BURNS
Wrestling experts are picking Alvin Britt, former junior heavyweight champion of the world to defeat Tony (Killer) Morelli, Italian wrestler, tonight when they meet in the main event at the Orange County Athletic club. The show opens at 8:30 o'clock.

Morelli and Britt wrestle for two out of three falls to a finish in a match that, if won by Britt, probably will lead to a title match within a few weeks. Britt, who lost the title two years ago in Cleveland to Dude Chick, the Wyoming cowboy, came to the Pacific coast for the specific purpose of forcing Chick to give him a return match. Promoter "Bud" Levin has indicated that if Britt defeats Morelli there will be no obstacle in the path of a championship match. Britt already has defeated Chick in a non-title bout at Gilmore stadium, New York.

In the two-out-of-three fall, one-hour time limit semi-windup, Pat O'Brien of Hollywood pits his skill against Ken Hollis of Abilene, Tex. Hollis is rated among the rough matmen but may find O'Brien difficult to subdue if he makes the Irishman mad enough to spit on his hands and really go to work.

In the feature match "Speedy" LaRance, colorful French-Canadian grappler, meets Sgt. Bob Keneston, the Oregon Marine who has defeated such rough matmen as "Tarzan" Bob Montgomery in the Highway 101 arena.

Pat O'Dowdy, former Irish Free State Guardsman, meets Frank Clements of Florida in the 30-minute curtain-raiser.

When It Ended I Was Ready for Hospital
When one paces a hospital floor from 1:30 a. m. to 5:18 p. m., with his family of two soon to become three, he doesn't have a very much time to think of sports.

With the anxiety over, and a seven-pound, six-ounce bouncing baby boy staring at you through the nursery window, however, you feel like returning to your typewriter with new enthusiasm.

The heart warmed when I read that splendid send-off Eddie West gave us in his "West Winds" yesterday, indicating I wasn't wrong in devoting my own column to the blessed event, which undoubtedly can create more excitement than a U. S. C.-Notre Dame football fray.

Friend West says one hasn't begun to live until he's a proud papa, and I readily agree with him. I was enjoying this old life aplenty before the arrival, but now it's difficult to keep the buttons on my coat. Life just doesn't seem the same, mes amis.

Lewis Wetherell Will Play at Philadelphia
Lewis Wetherell, the Santa Ana tennis shark who won the national public parks championship twice, and has been undefeated with Joe Hunt in college doubles this season, has left with his U. S. C. teammate for a campaign in the East.

Wetherell and Hunt will represent the Trojans in the national intercollegiate tennis championships July 4-11 at the Merion Cricket club, Philadelphia. Prior to this meet, they will participate in the national clay court championships June 15-25 in Chicago.

After the college championships, the Southern California netters will take part in invitational tournaments at Seabright, N. Y.; Southampton, N. Y.; Rye, N. Y.; and Newport, R. I. Wetherell will not defend his national public parks singles title, as he plans to compete with Hunt in more of the eastern invitation meets. He is the son of Mr. and Mrs. H. G. Wetherell, 419 South Birch.

Door Prizes Offered At Highway 101 Club
Frankly disappointed by the attendance of boxing as well as wrestling at the Highway 101 arena he leased a few weeks ago, Promoter M. J. (Bud) Levin hopes to improve conditions by offering door prizes to the fans. His "lure" will be similar to the "treasure chest" and "magic screen" nights at the theater.

This department told Levin when he first took over things at the Orange county battle box that neither of the sports would draw well during the winter months. Fans like both boxing and wrestling in these parts, but apparently they're seasonal sports to them just like football. Levin should enjoy a tremendous increase in patronage during the summer months. "I'll have to, or else . . ." says the jovial promoter.

Exodus 20:8

When a fellow goes fishing on Sunday, that's his right and privilege. And it isn't news. Lots of fellows have gone fishing, do go fishing and will go fishing, even unto the end of time.

But when a minister says, as the pastor of the United Congregational church of Butte, Mont., does, "My congregation and I want to do some fishing this year, but we want to go to church, too, so for the rest of the summer we'll hold our regular services on Wednesday evening instead of Sunday morning," well—

It almost takes the breath away from a fellow who went to an orthodox Christian Sunday school in his youth, and who remembers most of the Ten Commandments.

Those Commandments don't say anything at all about meeting or not meeting at church on Wednesday evening or Thursday evening, or any other evening.

But the eighth verse of the 20th chapter of Exodus does say, very plainly, this: "Remember the Sabbath day, to keep it holy."

Without seeking to preach to anybody, we still can't help wondering how the Butte pastor squares that with his summer of Sunday fishing.

Now we have it. The State Department declares the bombing of women and children to be "barbarous."

Who Can Beat Billions!

Since the United States senate thrice has refused to condemn the use of relief money for political purposes, and since therefore every henchman down the line by now has taken the cue, it might be well to envision again what a billion dollars really means.

The best way we know is to bring up to date a computation published some years ago:

If a billion dollars had been gathered together 500 years before the birth of Christ and had been spent at the rate of \$1000 a day since then to now, there would still be (as of today) \$109,745,000 left.

Multiply by the number of billions in the relief spending program to get the full effect. Then let your imagination play on the power of that sum when parceled through channels into which the word has gone that the expenditures may be safely made where they will do the most good politically.

This may mean that perpetual motion at last has been discovered; that those who conceived the system will be forever unbeatable.

Or it may mean a public revulsion against what at this writing certainly looks like a sure thing.

Now if the G-men will find those Cash and Levine kidnapers we'll even begin liking J. Edgar Hoover.

Nine Men's Vacations

One thing you can't say about the nine old men of the supreme court; you can't say that they use their summer vacations for a lot of wild skylarking around.

Not a one of them is planning this year (if the announcement of their respective plans is to be believed) on lolling about with the beach bathing beauties, or following the ponies at the race tracks, or doing the gambling ships, or looking in on Coney Island, or even sneaking off with some of the fellows on a so-called fishing trip.

Instead, three of the nine say they're going into the country to manage their farms. Three others have no plans and will just stay at home. The third three plan auto trips, two of the number to the Pacific coast. Chief Justice Hughes' tour is aimed at New England and Canada; maybe if our Mission Trails and Redwood Highway promoters got busy on him, he'd come this way, too.

Why do girls try suicide after quarrels with boy friends instead of changing boys?

A Serious Drawback

Radio engineers have made a tuner-inner that can be taken to any part of the house, or even out in the yard, and yet will, without wires, give station selection and volume control to the person who operates it.

This means Mother, in the kitchen, can switch programs to suit her taste, or Dad, at his morning shaving, can shut off the daily dozen count that made him nick his chin a couple of times.

Reports from the Chicago convention of dealers and distributors, where the marvelous device was shown, say that it will work only in connection with the radio with which it is synchronized, and cannot be used for shutting off the neighbors' radio sets.

Shucks!

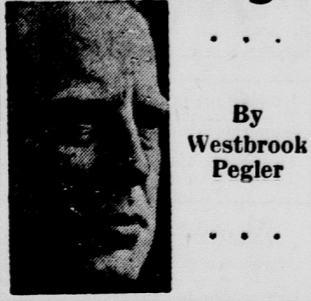

A man doesn't need sharp ears to hear the quitting signal.

An Ultra-Modern Thought

A school councillor in Surrey, England, writing his findings after a survey of school affairs and conditions, says, "Parents are often a hindrance to children in a career."

Now surely there's no need to stand for anything of the sort. Why not just abolish them? Down with parents!

Fair Enough

NEW YORK—The recent distribution of easy money to a few Americans through the sweepstakes revives the yearnings of many citizens for an official national lottery to be conducted for the benefit of the United States treasury and the relief of the taxpayers. Proposals have been made in congress to organize such a gamble, usually with a prediction that the government would receive a billion a year on the basis of a 40 percent take. That would mean a gross business of \$2,500,000,000 a year.

These predictions are all dream stuff, however. They are made of hope and conjecture, and they ignore the known facts.

It is a known fact that in 1935, in the eighteen American states which permitted and supervised racing by running and harness horses and dogs, the total amount gambled was only \$257,562,000, a little more than a quarter of a billion dollars. This excludes the racing in New York state and New Orleans, on which there were no data because of the absence of official supervision. The total return to the eighteen states was only \$8,976,000.

This was open, legal gambling, and the figures would seem to embarrass the enormous estimates which the police and prosecutors place upon the penny-ante numbers racket.

One reads of the millions handled by private, underworld creatures such as the late "Dutch" Schultz, of New York, and his political silent partners, but, comparing the method and the average amount of the bets with the horse park traffic, one is compelled to doubt. A "Dutch" Schultz with a flash roll of \$10,000 in currency may seem to be a millionaire. But it is known that the numbers racket deals in bets of pennies, nickels, dimes and quarters and must operate more or less secretly. It is hard to believe that the numbers racket handles as much as the licensed race tracks, with their open facilities and publicity.

British Figures
The British are great gamblers, but the Glasgow Herald, in a careful survey of the football pools, which roughly correspond to the numbers racket in this country, except that they are legal and widely advertised, found that the gross handle for a season of 36 weeks was not more than \$200,000,000. The football pools pretend to operate on a pari-mutuel system, but there is no assurance that they do, because the British law does not regulate them. Ostensibly they retain only 5 percent as profit but that is only what the operators say.

The Irish sweep conducts three pools a year, and it is understood that this country, Ireland's best customer since the British placed a legal boycott on the sweep, buys about 50 percent of the tickets. It is hard to obtain true figures on the amount of the American trade, but in last year's Caserewitch it was announced that the Americans had bought about \$7,000,000 of an issue slightly less than \$14,000,000.

If this figure may be taken as an index we buy \$7,000,000 worth of Irish sweep tickets three times a year, a total of \$21,000,000, which looks very puny in comparison with the hundreds of millions which we are said to export to Ireland. These hundreds of millions of dream money are cited as one of the strongest arguments in favor of an American national lottery. The idea is to keep the money at home. But if the amount is only \$21,000,000 a year it is unimportant economically.

Others Not Happy
Anyway, the real figures, whenever it is possible to dig them out, discourage the idea that this country gambles in billions or would gamble in billions if we had a lottery. There is no law against wishing, but the statistics are against fulfillment.

As to the morality of the sweep there is little to be said in opposition when many of the states permit open gambling on the races and take a percentage. But it can be pointed out, in addition to the apparent overestimate of the probable profits, that we have one of the few countries on earth which have no national lottery and that those countries which do have them are not conspicuously happy. In theory lotteries may be very tempting, but in practice the nations which use them soon find themselves no better off.

The Mailbag

Public opinion, or what somebody in office imagines to be public opinion, is our ruler. If public opinion is active, the politicians and people sit up and take notice. There is a definite need for outspoken talking and thinking on public matters. Honest, intelligent fair discussion of our problems is immensely useful. So that every citizen may have his say and contribute to the formation of public opinion, The Journal invites letters to The Mailbag. Please limit communications to 350 words. The editor reserves the right to shorten all letters in excess of that length.

"I AM THE LAW" HAGUE

To the Editor: A contributor over the initials "A. S. V." expresses disgust "with the way newspapers attack Mayor Hague of Jersey City because he insists on maintaining the true principles of Americanism."

Let us see what kind of principles are maintained by Mayor Hague.

It may be safely assumed that the American Bar association does not elect reds to its presidency; but Arthur Vanderbilt, the current president, denounced Mayor Hague and all his works. My recollection is that President Vanderbilt is a citizen of New Jersey.

Hamilton Fish, a Republican Congressman from New York, at this imagines he sees red bogie men behind every bush; but he emphatically states that the Hague incited red scare in Jersey City is merely a smoke-screen.

The New York Post sent one of its feature writers, David G. Wittles, to Jersey City to investigate Mayor Hague and his system; and after a thorough investigation he wrote that the Hague organization is a \$50,000,000 a year business, set up like an underworld empire, and that the Hague crowd fights to protect it the same as any other gang battles for its rackets: "viciously, violently, terroristically."

Mr. Wittles also discovered that Mayor Hague, without any trade, profession or business, but with a yearly salary of \$6500, pays annually \$7000 rental for an apartment; purchased a castle along the shore for \$125,000; summers in Europe and winters in Florida; spends money lavishly and meanwhile has become a very rich man.

Also that dozens of men associated with the Hague organization have likewise become immensely wealthy without any more visible sources of income than has the mayor; and that the Hague machine has looted the city, and, except for trick bookkeeping, the city is bankrupt.

The Wittles' articles quote the Case legislative committee that not only proved the Jersey City administration rank with flagrant graft, but intimated the existence of downright thievery.

It further appears from Mr. Wittles' report that Jersey City is headquarters for numerous rackets; that an Eastern horse race gambling syndicate has found a haven in that city, and that the numbers rackets and other rackets flourish there.

Newspaper stories indicated that war veterans were among those who "took the law into their own hands" in Jersey City. It now appears that these veterans were not members of the American Legion or of Veterans of Foreign Wars, but were members of a state war veterans association headed by a colonel who is colonel not by virtue of any military experience but by grace of Governor Moore of New Jersey.

Government G-men are said to be investigating conditions existing in Jersey City, and some of the outrages committed there in the name of patriotism; and what is known as the LaFollette Senate Civil Liberties committee will hold hearings after the adjournment of congress. So there will then become available more information in relation to Mayor Hague, "true defender of American principles."

SHARPLESS WALKER.

Bright Moments

Camillo Benso di Cavour, the great Italian statesman who died in 1861, was bred in a domestic circle, regulated by a patriarchal feeling in which the right of the eldest son was greatly respected.

At the height of his fame, when he lived in the town house at Turin, with his eldest brother, he cadet, "People fancy me very powerful," he once said, "but I have never been able to get rid of the presence of Barnabo. I must endure it, whether I like it or not."

ONE AND ONLY

He was genuinely enthusiastic about the virtues of temperance, but his face made people doubt him.

Toward the close of his lecture, he squared his shoulders, held his rather large head erect, and said: "I have lived in this town all my life. In this town there are 55 public bars, and I am proud to say that I have never been in one of them."

Then came a voice from the back: "Which one is that?"

Philosophy

Here is a story of a boy named Cyrus Curtis who had the knack of making people want to help him. Read this and decide what you think was the reason people wanted to help him?

He was twelve years old when the Civil war started, and up in Maine where he lived, was a veritable boy's paradise of war stories and pirate excitement.

One day after the fateful encounter of the Monitor and the Merrimac in Hampton Roads, Va., the boy's eyes opened wide as he saw a monitor anchored in Portland harbor. A boat carried visitors from one of the docks to the Monitor. He raced toward the dock, followed as usual by his dog. He was going to get aboard that Monitor! But there was a catch. Twenty-five cents! And he didn't have it!

Being the kind of boy he was, a condition like that couldn't hold him back. Racing to a nearby shipyard, he found a log seasoning in the water. Mounting the log, and with a stick for a paddle, his dog perched behind him, he made his way toward the Monitor. They had almost reached the ship when the dog became a little too eager and knocked Cyrus into the water. He could swim like a duck, so what the difference? But there was a difference. The captain had been on the lookout. He understood the situation at a glance. He liked to help the kind of boy who was out to help himself. He had him brought aboard and his clothes dried. Then Cyrus toured the ship as the captain's invited guest.

Cyrus Curtis grew up to be a man who always found a way to reach any object he made up his mind to reach. For he was a man of integrity, and a hard worker. He demonstrated that such would be his way of life when he paddled that huge log out to the Monitor.

Years later, he wanted to buy a supplement to a more or less obscure magazine with about 2000 subscribers. Again there was a hitch. He didn't have the money! And again there was an on-looker. This time a brother-in-law—who knew all about him—helped him with a loan of \$2000. This supplement became The Ladies' Home Journal. The magazine succeeded; and later Cyrus Curtis became the owner of the Saturday Evening Post and The Country Gentleman, with a combined circulation of more than seven million.

Now, there must have been some reason why this boy could inspire people to want to help him. What is your guess? Mine is determination, ambition, and vision; backed up by hard work, initiative, and integrity.

Do you remember the things you were worrying about a year ago? How did they work out? Didn't you waste a lot of fruitless energy on account of most of them? Didn't most of them turn out all right, after all?
